

## CTC Carterclene (Anti-Static Foam Cleanser)

CTC is an extremely powerful, highly efficient anti-static foaming cleanser for surfaces prone to static dust attraction. The product can be used to aid removal of heavy deposits of dirt and grime from plastic, metal, glass and synthetic surfaces and is designed as an enhanced version of AFC. Care should be taken with metal surfaces as CTC has a relatively high pH; contact time on sensitive metals should be kept to a minimum.

- Highly efficient, hard surface cleaner; ideal for very stubborn deposits
- Powerful anti-static properties; prevents dust build-up
- Safe on delicate surfaces; glass lenses treated with CTC will remain mist-free for long periods
- Exhibits especially long-lasting foam characteristics

### Typical Properties

Form	Aqueous Liquid
Density (g/ml)	0.97
pH	11 - 12
Boiling Point (°C)	>100

<u>Description</u>	<u>Packaging</u>	<u>Order Code</u>	<u>Shelf Life</u>
Carterclene	400ml Aerosol 5 Litre Bulk	CTC400D CTC05L	48 Months 48 Months

### Directions for Use

Shake the can well before use. Spray on surfaces to be treated and wipe away ingrained contamination. Re-spray, wiping gently to remove foam. It is recommended that lint-free cloths such as Electrolube ECW are used in conjunction with this product. Do not spray onto live electrical contacts.
